Subject: Notice of Leadership Change — Excavation Beaulieu & Fils

Hello,

We would like to inform you directly of a change in leadership at Excavation Beaulieu & Fils.

As part of the continued evolution of the company founded in 1994 by André Beaulieu, new leadership is now taking over.

Business operations will continue as usual, and our team remains in place. This transition does not affect our current commitments to our suppliers, business partners and collaborators.

Over the coming weeks, you will also notice the gradual rollout of a new visual identity across our documents, communications, vehicles and digital platforms.

Effective September 1, 2026, please note the following contact information:
